Mission

“To create a rapid and effective formula to offer the luxury clothing industry a product and service of the highest quality.”

Antonio Screpis
President of AESSE Projects

The Story

timeline

From the beginning

After few years working as a freelancer model maker, Antonio decides to start his own company, founding **Aesse Projects**.

2002

As a model maker, **Antonio Screpis**, gains working for some of the largest fashion groups and famous designers such as Versace, Hermès and Jean Paul Gaultier.

2000

After a successful collaboration with Calvin Klein, **Aesse Projects** finds in **Burberry** its current most important partner.

The decade brings several new clients: Hugo Boss, Brookesfield, Gieves and Hawkes, Mulberry, Belstaff, Temperly.

00's

2013

Aesse projects is named the **best Burberry supplier** out of a total of 400 of the world's top manufacturers.

A continually updated list of clients: Burberry, Burberry Chw, Coach, Proenza Schouler, Acne Studio, Woolrich, Barracuta, Spiewak.

operative model**
based on research
and passion.

A Winning Formula
to offer the luxury
clothing industry a
product and service of
the highest quality.

LEADING COMPANY

Outerwear specialist

The pattern making & product development model

The «Pattern making»

*The designer's sketch is given three dimensions by the **pattern**, from which the first prototype is sewn. After any necessary alterations the first sample garment is made.*

The Production

The prototype stage is made entirely in our headquarter and is based mainly on the experience as pattern maker of Aesse's President - Antonio Screpis. For the phases of prototypes, samples and production it also collaborates with specialized external structures selected by the type of product, in order to guarantee to the customer, from the beginning, the quality standard that will follow throughout the production.

The Quality Control

*All the items are thoroughly examined and submitted to **100% quality control**, by trained personnel in our own warehouse, with the use of **X-ray machines** in the final phase. Each garment has a label, indicating the manufacturer that made it (Manufacturer IDentification, MID number), in order to ensure that customer service is responsible and highly qualified.*

The Logistic Structure

*The logistic structure is highly innovative and ensures **punctual delivery**. It has 3 automated warehouse that ensures the immediate availability of each item: the **speed** becomes a strength of Aesse.*

Numbers

1

More than **140 employees** in Italy and **2000 collaborators** in Bosnia.

2

More than **9000 sq. m.** of property in Cattolica.
